Denny Cao

Dear Denny,

I recently had the pleasure of offering you admission to Temple University, and I have some exciting news to share with you.

As a result of your outstanding achievement in high school and your potential to excel at Temple, I am now pleased to name you a President's Scholar, which carries an undergraduate full-tuition scholarship (up to 18 credits per semester; the exact amount of your scholarship is based on your status as a Pennsylvania resident, and is subject to change based on your residency status). You are eligible for the President's Scholarship for a total of four academic years (8 consecutive regular semesters) as long as you are enrolled full-time. Your scholarship is guaranteed for your first four consecutive semesters, at the end of which a 3.25 cumulative GPA must be achieved and maintained in order to renew the scholarship annually. Since tuition varies depending upon your school/college, this award will adjust accordingly if you transfer to another undergraduate school/college within Temple University. In addition to your merit scholarship, you also may be eligible for need-based financial aid.

As a President's Scholar, you are eligible to apply for one \$4,000 summer educational enhancement stipend for approved study abroad, research, internships, or other academic activities.

Your acceptance package included information on reserving your place in the Fall 2023 entering class. Please review and take the appropriate steps as soon as possible so that you can get your college career off to a smooth start. A non-refundable tuition deposit must be submitted by May 1st in order to secure your scholarship; a later deposit will cancel the award.

Again, congratulations on your acceptance and scholarship. The Temple community looks forward to welcoming you to campus.

Sincerely,

Karin W. Mormando
Director of Admissions
