

Northeastern University
Undergraduate Admissions

Dear Denny,

Thank you for submitting your application to Northeastern University. After careful review of your application materials, we are unable to offer you admission to the university.

Admission to Northeastern has become increasingly competitive in recent years.

With more than 96,000 applications received this cycle, the Admissions Committee had to make difficult decisions given the size and depth of our applicant pool. While we understand you are likely disappointed with this decision, please know that it reflects the level of competition within the applicant pool.

We wish you the best as you work toward fulfilling your educational goals.

Sincerely,

The Admissions Committee
The Office of Undergraduate Admissions
Northeastern University
